# **Our Business Rates & Service Charges**

This "Our Business Rates & Service Charges" disclosure explains current terms, rates and service charges applicable to the savings and checking we offer. We may offer other rates and require other service charges or amend the rates and service charges, as explained in this disclosure, from time to time. Each owner on an account agrees to the terms described in this disclosure and acknowledges that it is a part of the Business Service Agreement (BSA).

### **Explanation of Rates & Service Charges**

As explained in the BSA, the "Our Business Rates & Service Charges" disclosure applies to all the accounts we offer. Except as specifically described, the following terms apply to all accounts you have with us.

#### **1. Rate Information**

The Dividend Rate and Annual Percentage Yield on the accounts you have with us are identified above. For all accounts except certificates, the Dividend Rate and Annual Percentage Yield may change monthly as determined by the Board of Directors.

All Business accounts other than Term Share Certificates are Tiered Rate accounts. If the balance is within a particular tier, the Dividend Rate and Annual Percentage Yield specified for that tier will apply to the full balance in the account.

For all accounts, the Dividend Rates and Annual Percentage Yields are the prospective rates as of the effective date shown above. For Term Share Accounts, the Dividend Rate and Annual Percentage Yield are fixed and will be in effect for the term of the account. For Term Share Accounts, the Annual Percentage Yield is based on an assumption that dividends will remain on deposit until maturity. A withdrawal of dividends will reduce earnings.

#### 2. Nature of Dividends

Dividends are paid from current income and available earnings after required transfers to reserves at the end of a dividend period. The Dividend Rate and Annual Percentage Yield identified above are the rates and yields for the last dividend period, as shown above.

#### 3. Compounding and Crediting

Dividends will be compounded and credited as identified above. For dividend bearing accounts, the Dividend Period begins on the first calendar day of the period and ends on the last calendar day of the period.

#### 4. Accrual of Dividends

Dividends will begin to accrue on noncash deposits (e.g., checks) on the business day you make the deposit to an account you have with us. If you terminate the account before accrued dividends are credited, accrued dividends will not be paid.

#### 5. Balance Information

The minimum balance required to start each account and earn the stated Annual Percentage Yield is identified above. If you do not maintain the minimum balance, you will not earn the stated Annual Percentage Yield.

For all accounts other than Business Custom Market and Term Share Certificates, dividends are calculated using the Average Daily Balance method, in which dividends are calculated by applying a periodic rate to the Average Daily Balance in the account for the dividend period. The Average Daily Balance is determined by adding the full amount of principal in the account for each day of the period, and dividing that figure by the number of days in the period. For all Custom Market and Term Share Certificate Accounts, dividends are calculated by using the Daily Balance method, which applies a daily periodic rate to the balance in the account each day.

#### 6. Term Share Account Features

#### a. Account Limitations

After you start the account, you may not make additional deposits to a Term Share Account.

#### b. Maturity

The Term Share Account you have with us will mature on the maturity date identified on your Account Receipt or Renewal Notice.

#### c. Early Withdrawal Penalty

We may impose a penalty if you withdraw any of the principal of the Term Share Account before the maturity date.

**1) Amount of Penalty.** The penalty on all certificates will be 182 days' dividends on the entire balance.

**2) How the Penalty Works.** The penalty is calculated as a forfeiture of part of the dividends that have been or would be earned. It applies whether or not the dividends have been earned. In other words, if the account has not yet earned enough dividends or if the dividends have already been paid, the penalty will be deducted from the principal.

**3) Exceptions to Early Withdrawal Penalties.** At our option, we may pay the account before maturity without imposing an early withdrawal penalty under the following circumstances: when an owner on an account dies or is determined legally incompetent by a court or other body of competent jurisdiction. Where the account is an Individual Retirement Account (IRA) and any portion is paid within seven (7) days after establishment or where the account is an IRA and the owner attains age 59½ or becomes disabled and begins making periodic withdrawals.

#### d. Renewal Policy

Term Share Accounts are automatically renewable accounts. Automatically renewable accounts will renew for another term upon maturity. You have a grace period of ten (10) days after maturity in which to withdraw funds in the account without being charged an early withdrawal penalty.

#### e. Nontransferable/Nonnegotiable

The account(s) you have with us is/are nontransferable and nonnegotiable. This means that an account and the funds in the account may not be pledged to secure any obligation of an owner, except obligations with the Credit Union.
